Troops Half Way to the Chinese Capitol

Tien Tsin, Wednesday, June 13.-The international expedition is now at Lang Fang, half way to Peking. The troops yards of the track torn up. Upon approaching the station they found the Boxers still carrying on the work of destruction, but the latter bolted into the village upon the approach of the advance party. A shell from a 6pounder was dropped into the village and the Boxers fled up the line. Above the station a small party was discovered engaged in tearing up the track. but a few long range shots drove them off. The patrol returned this morning and reports that a mile and a quarter of the track has been destroyed. The expedition will remain for the present at Lang Fang.

A courier who arrived this morning from Peking and Lang Fang brought a letter from the American Legation stating that General Tung Fuh Siang intends to oppose the entrance of the foreign troops into Peking. Ten thouand troops are guarding the south gate. The courier reports that it is said that upwards of 2,000 Boxers are in the immediate neighborhood of Lang Fang.

> London, June 14.-Lord Roberts' engagement with General Botha terminated as expected by the Boer commander-in-chief retiring from his position. Beyond driving Botha further from the capital, little seems to have been accomplished, as Lord Roberts does not mention the capture of prisoners or guns or the infliction of loss. Perhaps the most important feature revealed by today's official dispatches. is the announcement that the army of Natal is at last in touch with Lord Roberts' troops. The accomplishment of this movement, long delayed, should considerably accelerate the pacification of the Transvaal. That it is already pearing fruit is evident by the submission of the Wakkerstroom district to General Lyttleton.

Another dispatch from General Buller says that General Clery encountered no opposition in his march from Ingogo to Laing's Nek which he now or cupies. Hawaii's Bond Coin Not Yet Available

There was a rumor in financial circles this morning that the United States Treasury would not redeem the \$4,000,000 of Hawaiian bonds until September. As a Treasury agent was expected to arrive in Honolulu yesterday to carry out this business, the rumor was discouraging if not actually disquieting. The distribution of the mor was discouraging it not actuary, disquieting. The distribution of the capital represented by the bonds lo-cally held has for some time been an-ticipated with gratification as promising very material relief to the strin-genewy of the money market. General A. S. Hartwell, who as Spe-

cial Agent of the Republic of Hawaii in Washington had worked for prompt redemption of the bonds, was sought as one likely to throw light on the sub ject. In response to inquiries General Hartwell made a statement in sub-stance as follows:

"It is impossible to say whether the bonds will not be redeemed until Sep-tember, or to fix any time when they may be redeemed. The Coinage bill has failed to pass Congress. So has the resolution for the immediate redemp-tion of the Hawaiian bonds. After con-sultation with Secretary Gage and other friends in Washington, I helped

to draft the resolution.
